Technical Data Sheet

T-Rex CLEAR Tape

241535 – 48mm x 8.2M

Properties

- Clear Repair Tape
- UV-resistant to prevent yellowing and maintain product performance and integrity
- Pinked edge for hand-tearability with clean edge
- Waterproof and water-resistant (after application to surface)
- Puncture-resistant, crystal clear backing

Area of Use

- For quick and discreet repairs to a variety of surfaces, including those that require a water-resistant seal
- Can be applied to wet* or dry surfaces
- Can also be applied to rough surfaces and at below freezing temperatures
- For indoor and outdoor use

** Follow recommended usage instructions for best results in wet-stick applications*

Technical Data

Thickness mm	: 0.17mm
Material Backing	: Ionomer film
Adhesive	: Solvent acrylic-based
Tensile Strength	: 41.2 N/10mm
Performance Temperature	: -5° - 150° F

Physical and technical data displayed in this document are based on international accepted test methods but are no guarantee for product characteristics or product performance. Individual rolls may vary slightly from these averages.
The user should determine whether a product is fit for a particular purpose and is suitable for the user's method of application before use.
