FURNO

PANEL HEATER

FIND OUT MORE

The perfect solution for:

Bedrooms
Guest Rooms
Home Office
Conservatories

The Furno panel heater has been designed with an aluminium plate face to provide soft, even homogeneous heating which can quickly heat the room up and combining a clean asymmetric style makes the Furno the perfect electric panel radiator for any modern home and establishment.

Packed with a range of features to make home heating that much easier and equipped with direct Wi-Fi connectivity capabilities. The Furno panel heater offers the homeowner to wirelessly control their panel heater's temperature setting and turn the panel heater on and off through the Cozytouch App.

- Wi-Fi Connectivity
- Anti Frost Mode
- Aluminium Heating Element
- Open/Closed Window Detection
- High Precision Electric Thermostat
- LED Control Panel
