

# SAFETY FOOTWEAR

Hard wearing safety boots and trainers built with quality materials and technologies to ensure maximum comfort and protection, all day, every day.

## TECHNOLOGIES:

Dri4Work® is a high performance, waterproof lining that's built into Scruffs waterproof footwear to deliver all day comfort, ensuring feet stay dry.

Poron® cushioning materials are used within Scruffs insoles. The shock absorbing material ensures an even distribution of pressure through the foot to reduce discomfort, aches and pains.

Micro-Fresh® technology is incorporated into Scruffs footwear to prevent the growth and spread of harmful bacteria. It reduces unpleasant odours whilst being kind to human skin and the environment, and lasts for the lifetime of the product.

## CONTENTS:
