

For fast, hassle-free fixing within stud walls,
try the Britclips® RSWB

Britclips® RSWB

Rapid Sliding Wall Bracket

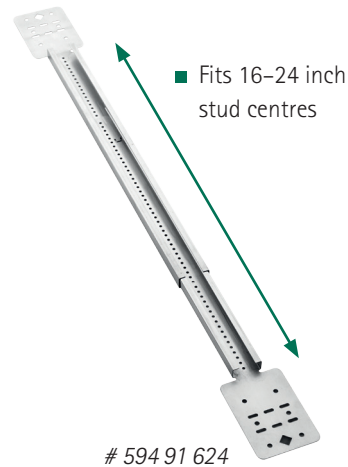

Rapid Sliding Wall Bracket

There is no need to struggle with traditional methods of fixing within stud walls, the Rapid Sliding Wall Bracket is an extendable bracket for fast mounting of electrical boxes, conduit and more.

Features and benefits of the Britclips® RSWB

- Extendable bracket for faster mounting of electrical boxes and conduit
- Can be fixed to metal or timber studs
- Expands from 16 to 24 inches (40 - 60cm)
- Quicker and easier to install than traditional methods
- Can be positioned at multiple distances from the edge of the baton
- A lightweight product made from high quality galvanised steel

What do installers think about the RSWB?

An electrical installer who regularly uses this product commented:

"The Walraven RSWB has quickly become an essential part of our electrical 1st fix process. The adjustable nature of the arms not only allows it to be used in any partitioning system, but also allows us to position accessories in their final location at 1st fix stage. The huge benefit of this is that it removes the need to return at a later date to install accessories often under difficult circumstances, such as through plasterboard or insulation."

Install in three easy steps

1. Supplied in connected pairs, simply snap the brackets apart
2. The brackets can be extended to fit between studs that are 16 to 24 inches (40 - 60cm) apart
3. Use the markers to position the bracket at the required distance from the edge of the baton, bending the ends to fix over the edge if required.

Order a free sample now!

To request a free sample of the RSWB go to www.walraven.com/en/rswb and fill in the form. Alternatively, email your request to marketing.uk@walraven.com
