

GT1400 | AUTO IGNITION BUTANE POWERED PRO TORCH

Features and Benefits:

- Ideal for industrial applications.
- Torch runs on butane gas for convenience and accessibility.
- Nominal flame temperature of 1350 degrees Celsius provides high heat output.
- Large flame size and adjustable flame control for precise applications.
- Robust construction ensures durability and reliability for professional use.
- Large fuel tank offers up to 200 minutes of operating time.
- Self-contained electronic ignition with a waterproof piezo for easy and reliable ignition.
- Flame adjustment feature allows for customization of flame intensity.
- Compact size and ergonomic design for comfortable handling and maneuverability.

Technical Specifications:

- Height: 175mm
- Length: 120mm
- Grip Diameter: 45mm
- Base: 65mm
- Weight (Empty Tank): 295±2 g
- BTU (British Thermal Unit): 3742.2
- Flame Temperature: 1350°C
- Fuel Capacity: 56ml
- Operating Time (Mid setting): 30 minutes

Applications:

The GT1400 Auto Ignition Butane Powered Pro Torch is suitable for various industrial applications including:

- Heat shrink applications
- Brazing and soldering tasks
- Plumbing installations and repairs
- Industrial maintenance and repairs

Note: When filled with butane gas, avoid storing the torch in environments exceeding 40 degrees Celsius.

Please adhere to safety guidelines and regulations while operating the torch.

For detailed operating instructions and safety precautions, please refer to the product manual.

In support of our policy of continuous product improvement we reserve the right to change materials and specifications without notice. Drawings, where used, are not to scale. All dimensions are in millimetres and sizes given are approximate. Where possible, technical MSDS data sheets are made available on the website. All products should be installed and used in accordance with manufacturer's instructions provided. Warning: products may be the subject of registered designs and patents.
