

Quantec

Wiring instructions for:

QT602 Addressable Call Points
QT602E Addressable Call Points
QT609 Addressable Call Points
QT302RX Master IR Ceiling Receivers
QT606 Slave Overdoor (OD) Lights
QT606S Slave OD Lights c/w Sounder
QT607 Ceiling Pulls
QT302RXS Slave IR Ceiling Receivers
QT602D Slave Call Points

This instruction leaflet shows examples of two common wiring methods for Quantec Addressable Call Points/Ceiling Receivers (all variants) with connections to typical slave devices. One method is shown adjacent, the other appears overleaf.

For detailed wiring, installation and programming information - including important compatibility information relating to a master call point's optional special programming functions - please refer to the main Quantec Installation manual, document no. DNU6012001.

Important note regarding IR devices:

Due to the high-risk environments in which infrared devices are likely to be used, be sure to install them so the best possible reception is achieved. If in doubt, contact your supplier for advice.
