MightyRods 10m Cable Rod Set

'Mighty-Fix' zinc plated steel connectors are glued, indented and crimped for ultimate tensile strength in excess of 375kg. Slimline connectors reduce snagging and provide accessibility through smaller holes. 5mmØ rods offer the optimal balance of rigidity and flexibility for the majority of cable routing requirements. High sheen fibreglass and resin composite rods minimise snagging and splintering.

CONTENTS:
10 x 1m rods, cable hook, 190mm coiled steel flexi lead, mini eye & ring, 5mm adapter.

Pom Draw Tape 30m

High quality draw tape constructed of three intertwining POM (Polyoxymethylene) strands. Helical tape structure for reduced friction and high tensile strength. Flexible head attachment for navigating conduit with multiple bends. Robust plastic casing for convenience during storage and transportation.

Item Number			
495056	30m (98ft)	6mm	1

DRAW TAPES

Steel Wire Draw Tape (POM Coated) 50m

Superior quality draw tape. Constructed from steel core wire and durable POM (Polyoxymethylene) coating. Steel core wire provides optimum rigidity and exceptional tensile strength for effective pushing and pulling of cable through runs of conduit. Abrasion resistant and low friction; the POM coating has material properties that are well suited to cable pulling applications. Fitted with a flexible head and draw eye for minimal resistance whilst navigating cable through conduit with multiple bends.

Item Number			
495055	50m (164ft)	5.5mm	1

Nylon Draw Tape

Nylon Draw Tape for low friction and high strength during cable pulling applications. Flexible head attachment for navigating conduit with multiple bends. Red coloured tape for improved visibility in conduit with existing cables. Robust plastic casing for convenience during tape rewind, storage and transportation. Non-conductive properties for safe working practices.
