

Technical Characteristics

Wiser Sensors

Download
Wiser by SE app

The Wiser Water Leakage Sensor detects the presence of water and alerts via an alarm and/or notification. When the sensor is connected to the Wiser Hub and detects water on the floor, it sends out a sound alarm and reports the event to the Wiser Hub. Householders with the Wiser by SE app installed on their smartphones can receive a push notification. The sensor should be placed where leaks are most likely to occur: the bottom level of your home or places like basement, kitchen, bathroom, balcony, bedroom, living room, utility room or anywhere you think leaks are possible. The sensor has two sensing pads at the bottom of the body. The pads are in contact with the floor surface when the sensor is placed in its operating position. The alarm activates when water is present between the pads.

Wiser Water Leakage Sensor

Identification	
Commercial Reference	CLP592011
Product colour	White
Product or component type	Sensor
Power	
Operating voltage	3 V DC (2 batteries LR03 AAA)
Battery life	Up to 5 years (may vary based on the usage, frequency of firmware update and environment)
Characteristics	
Sound level	≥70 dB at 3 m distance
Environment	
IP rating	IP44
Operating temperature	−10 °C to 50 °C
Operating humidity	10 % to 95 % RH, non-condensing
Installation	
Dimensions (H × W × D)	70.8 × 68.7 × 19 mm
Installation method	Place in the area of detection with the water sensor facing downwards
Package content	Sensor, 2 batteries (pre-inserted)
Certification	
Zigbee®	Zigbee 3.0

Dimensions (mm)

Note:

Download the Wiser by SE app to your smartphone, and install the Wiser Hub to configure and control Wiser devices. You can use the app to pair, set up and control Wiser devices. The Wiser by SE app is available in the App stores for smartphones supporting operating systems Android™ OS (version 7 and above) or Apple® iOS (version 11 and above).
