

18V XR G3 HAMMER DRILL DRIVER

DCD805

LAUNCH DATE: MARCH 2022

18V XR G3 HAMMER DRILL DRIVER USERS & APPLICATIONS

ELECTRICIANS

- Fixing Boxes/fittings
- Running Cables
- Running conduit

MECHANICAL

- 3/8" Tapcons
- Hole saw / twist bit through metal studs / trunking
- HSS bit through angle iron

CARPENTRY

- Cabinet installation
- Furniture building
- Timber construction
- Kitchen fitting

HVAC

- HSS bit into metal
- Hole saw into metal
- Fitting Ducting

PLUMBER

- Drilling into 2x
- Drilling into countertops/floors
- Drilling for radiator brackets
- Drilling boss pipes

ACCESSORIES USED

ACCESSORIES USED

ACCESSORIES USED

ACCESSORIES USED

ACCESSORIES USED

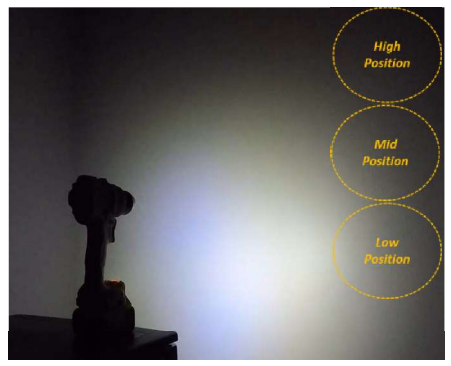

18V XR G3 HAMMER DRILL DRIVER

	RESULT
MOTOR	18V Brushless
TORQUE	90Nm
RPM	0-2000 rpm
LENGTH	177mm
WEIGHT	1.2 Kg (Naked)

INCREDIBLE POWER:SIZE RATIO

18V XR G3 WITH POWERSTACK

More Power

Faster Speed of Application

Less Weight

- XRP Power levels in Compact Drill package
- The most torque possible without a side handle
- Around 20% speed of application improvement
- Shorter and lighter than DCD796 in this configuration

Higher Max Watts Out

Faster Speed of Application

Improved Thermal Performance

Increased Cycle Life

More Compact

Greater Range of Applications

Increased output

Increased Durability

Greater ROI

Improved User Comfort

PRODUCTIVITY

FEATURES

ADVANTAGES

BENEFIT

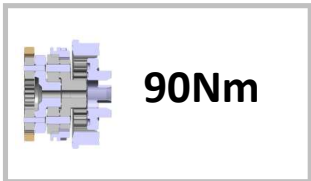

18V XR G3 HAMMER DRILL DRIVER KEY WINS

New 18v Brushless Motor

Increased power driven by the new compact 18v brushless motor. 80% more power density v DCD796

Improved Performance/Durability

An incredible 90Nm driven through the new/improved transmission. Designed to support the increase in power levels

Enhanced Electronics

To optimise the power delivered from the battery whilst improving performance and control.

3 Position/3 Mode LED

Enhances versatility of 3-mode LED. Allows user to aim light dependent on accessory length and/or position. Doubles up as a small task light.

Compact Size

13mm/6.6% shorter than existing units for improved ergonomics and delivering an incredible power:size ratio.

18V XR G3 HDD WITH POWERSTACK

DCD805E2T-GB

- Improved Transmission which Supports the increased power levels Increased power and performance
- Reduced Length/More Compact, 13mm/6.6% shorter (DCD805vDCD796) which gives enhanced ergonomics
- More Power, Efficiency and Durability, 80% more power density v DCD796 giving increased power and faster application speed
- Ergonomic Grip Design which maximises user comfort
- Enhanced Electronics for improved performance, control and productivity
- PIVOTING LED which illuminates working areas and dark & confined spaces giving improved visibility
- POWERSTACK Batteries in Kits to deliver and optimize the power and performance of these drills whilst in the most compact form
- **E2T** version is supplied with 2 x DCBP034 compact POWERSTACK battery, multi-voltage charger in TSTAK compatible box
