

DCF620P2K-GB

18V XR Brushless Drywall Screwdriver- 2 X 5Ah

The XR Brushless Drywall Screwgun is a cordless solution for installing drywall and uses the same battery and charger as your other 18V XR tools. This cordless screwgun provides greater speed than the DW272 corded screwgun, with up to 4,400 RPM. The nose cone locks on securely and can be adjusted to 3 different screw depths. To drive screws more quickly, use the included Collated Magazine Attachment. With 2 X 5Ah batteries, charger and TSTAK kitbox.

Selling Propositions

- LED worklight offers valuable light when working in small spaces or areas with limited light
- Quick release collated screw magazine accepts most collated screws to allow the user to fit boards more quickly
- Trigger lock on lets you work without having to pull the trigger
- 18V XR Li-Ion BRUSHLESS Drywall Screwdriver for efficient fitting of drywall
- Collated screw magazine rotates on tool without removal to allow the operate in corners with the minimum of fuss
- Easy collated screw magazine opening to allow for quick cleaning of drywall dust
- Supplied with TSTAK 2 kitbox to interconnect with all of the rest of your TSTAK storage system
- 5.0Ah High Capacity battery pack coupled with the BRUSHLESS motor offers eXtreme Runtime and compatibility with the rest of your 18V XR tools
- Angled belt hook can be positioned for left or right handed users and fixes tool strongly onto tool belt / pouch
- Robust and durable design means that the tool is jobsite tough
- Also supplied with locking nose cone so that you can work with the same tool on sites where collated drywall screws are not supplied
- One of the lightest and most compact tools on the market - it ensures that you can work comfortably and get into small spaces
- Tool free depth control and fine depth control for simple but effective setting
- "Set and forget" feature remembers your fine depth adjustment setting when removing and replacing the nose cone
- Ergonomically designed rubber grip gives you excellent user comfort whilst using the tool in either the "in-line" or "pistol-grip" hand position
- Powerful 4400rpm BRUSHLESS motor drives screws efficiently and effectively offering maximum runtime and a compact tool
