

DCS367N-XJ

18V XR Brushless Reciprocating Saw - Bare Unit

The DCS367 18V XR Compact Reciprocating Saw is a lightweight, compact saw designed to make cutting in between studs and in other tight spots easier than with traditional reciprocating saws. Features a DEWALT XR brushless motor and a variable speed trigger delivering up to 2,900 strokes per minute, this saw is fast and efficient. It also features a keyless, lever-action 4-position blade clamp for quick and easy blade changes in four directions for a variety of applications including flush cutting. A bright LED light is included to illuminate dark work areas. Bare unit, batteries and charger sold separately.
