

18V XR 75MM CUT OFF TOOL

DCS438

LAUNCH DATE: APRIL 2022

18V XR 75MM CUT OFF TOOL USERS & APPLICATIONS

Users

- General Contractors
- Metal Fabricators & Installers
- Tiling Contractors
- Electricians
- Plumbers
- HVAC Installers
- Drywall Contractors
- Automotive/ Mechanics
- Roofing Contractors

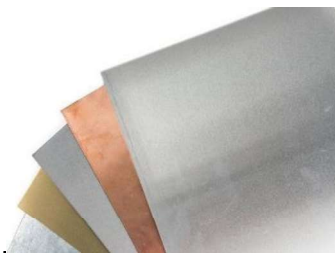

TILE

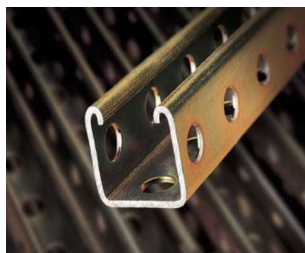

DRYWALL / CEMENT
BOARDS

FIBREGLASS / PLASTIC
SHEETS

METAL SHEETS

UNISTRUT

Applications

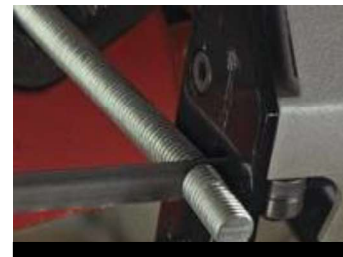

- Sheet metal
- Pipes
- Ducting
- Tiles
- Conduit
- Trunking
- Cable tray
- Drywall
- Fibre cement board
- Fibreglass/plastic sheets
- rebar

REBAR

CONDUIT

THREADED ROD

DUCTING

METAL /PVC PIPE

18V XR 75MM CUT OFF TOOL

Lanyard Ready Connection

Protects User & Tool From Accidental Drops When Working Overhead
Increased Tool Durability
Increased User Safety

Dropped Battery Foot

Lowered Battery Foot Provides User With Increased Comfort in Application, Without Impeding Users Wrist
Increased User Comfort

Blade LED

Bright LED Illuminates Workpiece For Increased Visibility In Confined/Dark Jobsites
Improved User Visibility

Single Finger Trigger Switch

Trigger Switch Ensures Maximum User Comfort & Control When Used in Right or Left Hand
Increased User Comfort & Control

18V Brushless Motor

Compact & Powerful BL Motor with High Working Efficiency Provides Class Leading **550 MWO** of Power
Increased Application Performance

Tool Connect™ Chip Pocket

Allows user to track and manage 18V cordless tools
Improved Tool & Inventory Management

Forward & Reverse Blade Direction

Variable Blade Direction Allows For Quick & Simple Changes, Feature Allows User to Divert Sparks When Working in Confined Areas
Increased User Productivity & Safety

Adjustable Detent Guard

Detent Guard Allows For Speedy Tool Free Guard Adjustments Depending On User Application & Preference
Increased User Productivity & Safety

Tool Free Adjustable Dust Guard

High Efficiency Dust Guard Removes Harmful Dust & Debris
Guard is Equipped With Depth Gauge For Accurate Depth of Cut
Airlock Connector Ensures Complete Compatibility With DEWALT Extractors
Increased User Productivity & Safety

22mm Depth Of Cut

Best in Class **22mm DOC** - Increased Application Capacity
Increased Application Capacity & User Productivity

Model	DCS438
Voltage	18V
Power (W)	550W
Disc Diameter	76 MM
Depth of Cut	22mm
Spindle Thread	10 MM
No Load Speed	20,000 RPM
Weight	0.80 KG
Dust Guard	Yes
Tool connect	Yes
Lanyard Ready	Yes

18V XR 75MM CUT OFF TOOL – ACCESSORIES SUPPLIED IN KIT

Tool Free Cutting Guard Is An Ideal Accessory For Users Who Are Working With Masonry, Tile & Drywall Materials Providing Dust-free Cutting In Application.

Lightweight With A Steel Base For Added Durability And Built In Airlock Connector, Adjustable Depth Gauge Allows Users To Easily Set The Depth Of Cut, Increasing The Accuracy & Productivity Of Tool

75mm Diamond Multi-Material disc

Suitable for cutting a wide range of materials including:
Drywall, Cement Board, PVC / Plastic, Fiber Glass, Metal

75mm Diamond Continuous Tile Blade

Professional Quality, Long Life
Incorporates A Fine Diamond Grit For A Precise Chip-free Finish.
Suitable For Dry & Wet Cutting In All Types Of Tile & Ceramics

75mm Bonded Abrasive Cutting Wheels (x3)

For General Cutting Applications In Stainless Steel, Ferrous And Non-ferrous Metals. Aluminum Oxide Grains And Reinforced Fiberglass Backing Ensures Maximum Life In Application

18V XR 75MM CUT OFF TOOL KEY WINS

18v Brushless Motor

Powered by an 18v brushless motor. Delivers and incredible 550w power in a compact form.

22mm Depth of Cut

Best in class **22mm** depth of cut provides the user with increased application capacity

Dust Guard / Air Lock compatible

The unit comes supplied with a dust extraction guard which helps to provide dust free cutting in materials such as masonry/tiles etc. Air Lock compatible ensures quick/secure connection to DEWALT vacuums

REVERSIBLE
BLADE DIRECTION

Reversible Direction

Allows user to divert sparks when working in confined areas

Additional Features

Future proof with Lanyard Ready connection points and Tool Connect Chip pocket.

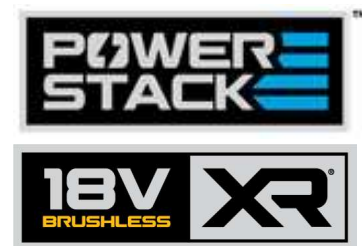

18V XR 75MM CUT OFF TOOL

DCS438E2T-GB

- 18V Brushless Motor For Extended Durability, High Efficiency & Provides Class Leading 550 MWO Of Power
- Best In Class 22mm Depth Of Cut For Increased Application Capacity Vs Competition
- Forward & Reverse Blade Direction Allows For Quick & Simple Changes In Blade Direction. Feature Allows User To Divert Sparks When Working In Confided Areas
- Dropped Battery Foot Provides User With Increased Comfort In Application, Without Impeding Users Wrist
- Single Finger Trigger Switch Ensures Maximum User Comfort & Control When Used In Right Or Left Hand
- Adjustable Detent Guard For Speedy Tool Free Guard Adjustments Depending On User Application & Preference
- Large Overmould Gripping Area Allows For Additional Grip And Increased Control In Application Even In Gloved Hand
- Blade LED Illuminates Workpiece For Increased Visibility In Confined/Dark Jobsites
- Tool Connect™ Chip Pocket Allows User To Track And Manage 18v Cordless Tools Via App
- Lanyard Ready Connection Protects User & Tool From Accidental Drops When Working Overhead
- **E2T version** includes DCS438 Cut Off Tool, Tool Free Dust Guard, 2 x Compact POWERSTACK Batteries, 1 x DCB107 charger, 1 x Bonded Abrasive Cut Off Wheel, 1 x Diamond Tile Blade, 1 x Multi-Material Diamond disc, Blade Wrench, supplied in TSTAK Compatible Kitbox

18V XR 75MM CUT OFF TOOL – ACCESSORIES SUPPORT

DT20590-QZ

75mm Diamond Multi-Material disc

Suitable for cutting a wide range of materials including:
Drywall, Cement Board, PVC / Plastic, Fiber Glass, Metal

Multi Material

- Drywall
- Cement Board
- PVC / Plastic
- Fiber Glass
- Metal

DT20591-QZ

75mm Diamond Continuous Tile Blade

Professional Quality, Long Life
Incorporates A Fine Diamond Grit For A Precise Chip-free Finish.
Suitable For Dry & Wet Cutting In All Types Of Tile & Ceramics

Tile

- Ceramic Tile
- Marble Tile
- Porcelain Tile

DT20592-QZ

75mm Bonded Abrasive Cutting Wheels (x3)

For General Cutting Applications In Stainless Steel, Ferrous And Non-ferrous Metals. Aluminum Oxide Grains And Reinforced Fiberglass Backing Ensures Maximum Life In Application

Metal

- Steel
- Stainless Steel
- Rebar
- Uni-Strut
- Conduit
- Tubing
- Auto Bodies
