

DT70759-QZ

63pc Drill Drive Set with Extreme Masonry & Extreme Metal Drill Bits

Modular, stackable medium tough case. Designed for secure storage of accessories. Clear lid for easy bit identification. Use the locking system to connect the cases together, and securely stack with small, medium, and large Toughcases.

Selling Propositions

- Medium Tough Case
- System Set
- Connectable Case allows multiple sets to be stacked and locked together.
- TSTAK compatible to hold all your accessory sets in one place.
- Compatible with the TSTAK system via the Large Tough Case.
- Extreme Masonry drill bits have a hardened steel body and core reinforcement for maximum strength combined with high drilling speeds in concrete and masonry.
- Anti-slip shank - 3 milled clamping surfaces prevent rotation of the drill bit in the chuck.
- Masonry drill bits are typically used for drilling anchor, plastic plug, fixing and pipework clearance holes.
- Extreme metal drill bits are made from high speed steel for wear resistance and longer life.
- Extreme metal drill bits have a strong central core and a tapered web to reduce breakage.
- Extreme metal drill bits are designed with a No-Walk Tip for a quick and easy start even on curved surfaces.
- Extreme metal drill bits have a No-Slip Shank - 3 flat sides eliminates slipping in the chuck (diameters 5mm and above).
- Extreme metal drill bits have recessed cutting wings for cleaner, more accurate, burr-free holes.
- Extreme metal drill bits have a Gold Ferrous Oxide Coating to prevent overheating for longer bit life.
- Easy screwdriver bit removal and retention for user convenience.
- Screwdriver bits lock into place to prevent them falling out when not in use.
- Screwdriver bits have an Optimised Tip Geometry for full fitment in the fastener and reduced cam-out.
- Full-fit head eliminates wobble and screw head rounding.
- A small bulk storage case included.
- Includes a drive guide with an extending sleeve for improved fastener stability and control.
