XR Circular Saw Blade 190mm Bore 30mm 24T

XR Circular Saw Blade 190mm Bore 30mm 24T

Selling Propositions

- For use with XR FlexVolt range and all compatible corded and cordless circular saws, mitre saws and table saws
- C3 next gen carbide with up to 3 regrinds
- Reduction of kerf reduces the amount of material being removed thus reduces the cutting force required making the blade more efficient and resulting in extra battery runtime
- A combination of Proprietary Grade Carbide Teeth and Expansion slots for reduced vibration, help to enhance cut performance
- Upto 2 times more cuts and charge versus competition and existing DeWalt blade

Standard Equipment

Warranty specifications

- Not Applicable (Statutory Rights Not Affected)

Specifications	
Diameter	190.0 mm
Bore Size	30.0 mm
Bore	Circular
Plate Thickness	0.82 mm
Kerf Thickness	1.55 mm
Tooth Count	24
Grind	Alternate Top Bevel + Raker
Rake Angle	25 °
Performance Level	Extreme
Pack Quantity	1.0
Tooth Direction	Anti Clockwise
Application Material	Multi
