

RFE Plus

Electric Radiator, with digital control programmer.

10 Years* Guarantee

- ✓ Digital temperature selector
- ✓ Daily and weekly programming
- ✓ 5 year memory back-up
- ✓ 3 temperature modes
- ✓ Thermostat accurate to $\pm 0.1^{\circ}\text{C}$

Patented wall fixing brackets

Why choose RFE Plus radiators?

The RFE Plus range boasts the very latest technology developed by Elnur to provide a modern, ergonomically designed, stylish, efficient and totally controllable electric radiator.

With know-how gained from 40 years of manufacturing excellence, Elnur has incorporated clever design features to enhance performance. The RFE Plus radiator range is manufactured from an injected aluminium structure with thermal fluid inside, specifically designed to disperse heat over its entire surface.

Every radiator in the RFE Plus range provides accurate temperature control of the room where they are installed. An electronic chrono thermostat allows the user to set their ideal temperature during the day or the night, as and when required.

Energy control is essential to minimise consumption and reduce electricity expenses.

RFE Plus radiators provide you with the latest technology in consumption control - ETCO (Electronic Triac Control Optimiser), to manage and restrict the flow of electricity.

Furthermore, each RFE Plus radiator has our built-in daily/weekly programmer to provide precise time control for the user. This easy to use yet comprehensive programmer allows them to set their desired mode - Comfort, Economy or Frost Protection, for any given hour of the day. Providing maximum comfort while helping to cut any unnecessary heating expense.

New features to enhance efficiency and reduce carbon footprint include adaptive start control and open window detection system.

The result is a technically superb product that provides the best efficiency in direct electric heating, coupled with our industry-leading 5-year electronics and 10-year components warranty.

Technical Features

- Electronic TRIAC Control Optimiser (ETCO) to manage flow of electricity.
- Digital temperature selector for displaying real temperature, set up temperature, clock and other messages.
- Daily and weekly programmer.
- Three-level temperature selector: Comfort, Economy and Frost-protection.
- Open window detection for reduced energy waste.
- Adaptive start control.
- EcoFluid technology
- Built-in electronic ambient thermostat $\pm 0.1^{\circ}\text{C}$.
- Adjustable digital thermostat.
- Built-in on-off switch.
- Security system with five-year memory backup, to prevent loss of programming.
- Flat lockable keyboard for easy cleaning.
- Thermal safety cut out.
- IP2X protection.
- Class I insulation.
- Stylish aluminium body finished in epoxy powder coating RAL 9010.
- Ratings from 500 to 2000W.
- Fitted with mains cable.
- Patented safety wall fixing brackets for ease of installation.
- Real time temperature display.
