ISSUE 1/07/23

HS5750S and HS5750W Tornado Duo Hi-Speed Hand Dryer Operating Instructions

IMPORTANT SAFEGUARDS

WHEN USING ANY ELECTRICAL APPLIANCE, BASIC SAFETY PRECAUTIONS SHOULD ALWAYS BE FOLLOWED.

PLEASE READ ALL INSTRUCTIONS CAREFULLY AND RETAIN FOR FUTURE REFERENCE

IF IN ANY DOUBT ABOUT THE INSTALLATION OR USE OF THIS PRODUCT, CONSULT A COMPETENT ELECTRICIAN.

HEATSTORE

Warning

- 1.Warning: Do not use this appliance near water. Do not use this appliance near bathtubs, showers, basins, or other vessels containing water. Further, avoid installing this appliance in environments with high levels of water vapour/ moisture as this could result in electric shocks.
- 2.This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been giving supervision or instruction concerning use of the appliance by a person responsible for their safety.
- 3.Children should be supervised to ensure that they do not play with this appliance.
4. Ensure that there is a clearance of 400mm below the outlet of the unit.
5. Do not install the unit above reflective surfaces otherwise the unit may operate incorrectly.
6. Ensure the unit is fixed to a smooth flat surface as per the fixing instructions below.
7. Do not install the unit in such place with corrosive or flammable gases or objects, it may cause fire, product failure or malfunction.
- 8.Do not install the unit in a dusty or high temperature environment as this may cause product failure or malfunction.
- 9.To avoid the risk of fire, do not cover the unit or pull the power supply.
10. To avoid the risk of electrical shock, please do not isolate the unit with wet hands.
11. Do not block the air outlet or insert anything into the aperture.
12. Do not modify the unit as this could result in a risk of electric shock, fire, or unit malfunction.

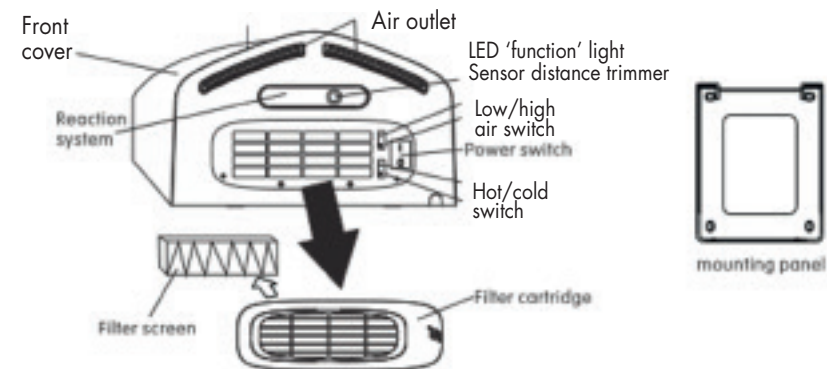

Features:

1. Auto sense Intelligent energy saving automatic heat element On Off switching when room temperature exceeds 210C
2. Manufactured with hygienic touch anti-bacterial coating
3. HEPA filter which captures airborne bacteria
4. Dual outlet
5. Dual sensor activation for instant start
6. Adjustable settings for increased energy efficiency
7. Low noise levels in operation - only 70dB
8. Fast 10-second drying time
9. 600W low energy motor
10. 1400W heating element
11. Dual Switching - Power consumption can be reduced by 25%
12. Fully Automatic operation
13. Tamperproof controls

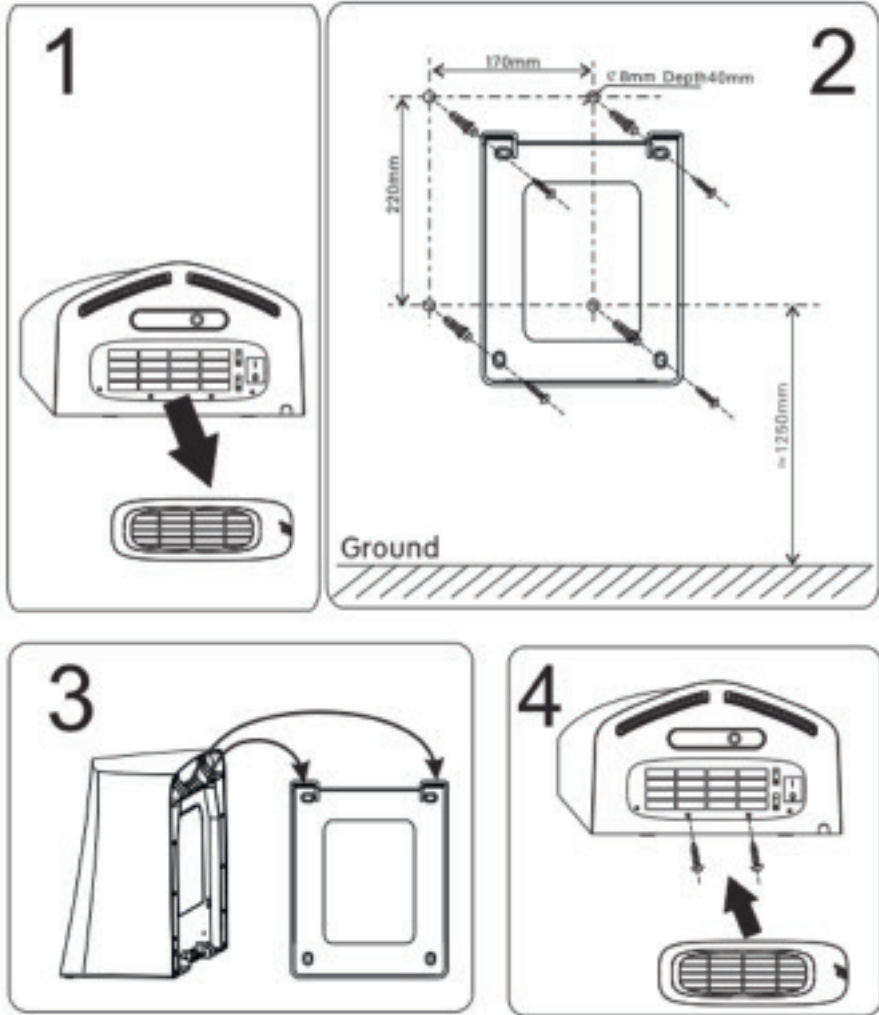

Technical parameters:

Rated Voltage	AC220-240V	Waterproof Grade	IPX3
Rated Frequency	50/60HZ	Air Speed	100m/s
Rated Power	2000W	Sensing Distance	12± 3cm
Ambient Temperature	(10cm distance/250C): 380C	Drying Time	10S
Installation	Wall Mounting	Overall size	325*310*188mm

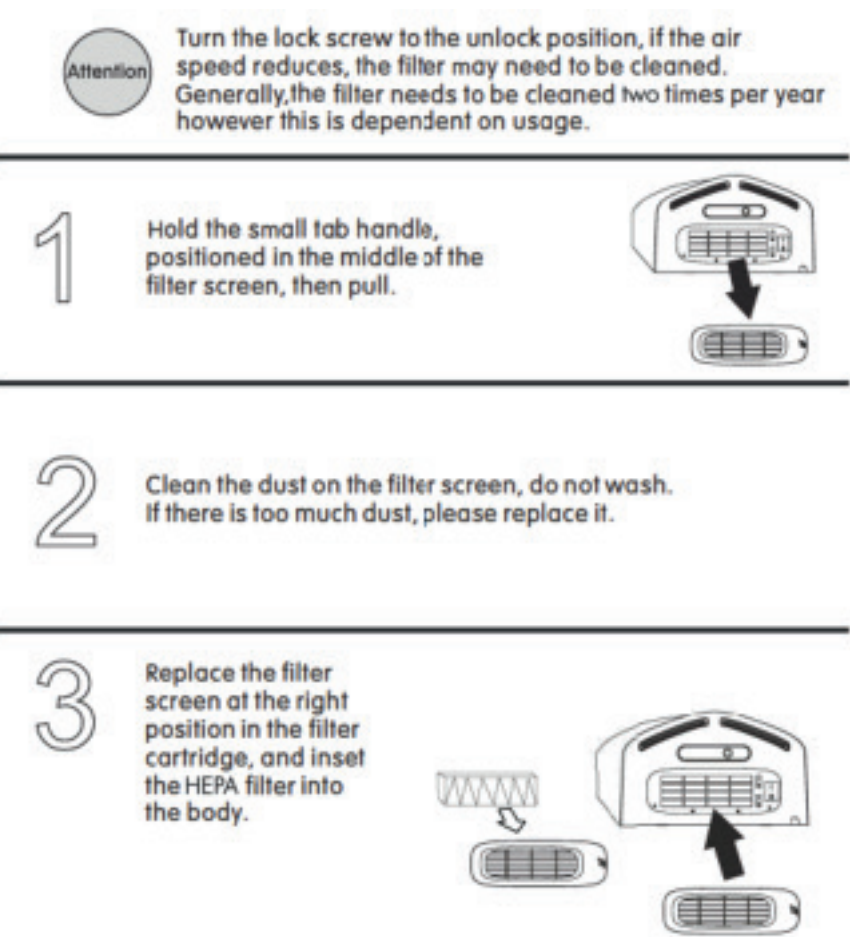

Components:

Method of Installation:

Cleaning of the filter cartridge:

Usage

1. Place your hands below the unit to activate. Once hands are dry, remove from the airflow and the unit will stop working automatically.
2. The unit is equipped with a LED 'function' light which acts as a guide to position the hands. If the hands are not in the illuminated area, the unit will stop working automatically.
3. The unit is equipped with auto-resetting thermal protection. If the unit is used for longer than 60 seconds the unit will stop working automatically. If you need to continue drying hands, please re-activate the unit.
4. Remove excess water droplets before activating the unit. Rubbing hands while drying will help reduce drying time and will save energy.

Maintenance:

1. If the unit is dirty, isolate the power supply and clean the front cover with a damp soft cloth. Do not use any caustic cleaning products, thinners, or abrasives to avoid damage to the front cover.
2. Avoid any excess water getting into the unit whilst cleaning to avoid electrical shock.
3. If the power supply cord is damaged it should be replaced by a competent electrician.
4. If the unit malfunctions, please isolate the power supply and contact a competent electrician to check the unit before restarting.
5. If the unit is not going to be used for a long period of time, please isolate the power supply, remove the unit from the wall and store in a clean and dry place.

Terms of guarantee:

1. The product is covered by a two-year exchange warranty.
2. The warranty period starts on the day the unit is purchased.
3. Warranty exemptions:
 - Improper use, alteration, or modification of the unit.
 - Any faults caused by natural disasters or abnormal supply voltages.
 - Continuous use and poor working conditions.
