

# Foil Underfloor Heating Mat Specification Sheet

## Product Description

The Heatstore Foil Underfloor Heating Mat provides the most advanced electric heating foil available today. The innovative exposed cable loops and continuous earth protection ensure an easy installation and total protection. Our recommended solution for engineered timber, laminate, carpet and vinyl floor finishes.

## Key Features

- Foil backed for use with engineered timber, laminate, carpet and vinyl flooring.
- Superior heating cable.
- Continuous earth protection braid making it suitable for installation in bathrooms.
- Efficient heat exchange foil.
- Easy cut and return installation.
- Low profile 5m long cold tail.
- Design service available.
- Lifetime Warranty for registered installations.
- Range of insulation boards available.
- Range of controller options available.

## Technical Details

Wattage	140w/m <sup>2</sup>
Protection	Continuous earth protection braid.
Mat Width	500mm
Heated Width	450mm
Max Thickness	1.5mm
Max Temperature	29°C regulated by Floor sensing thermostat.
IP Rating	IP67
Approvals	CE
Warranty	Lifetime warranty for registered installations.
Country of Origin	UK
Manufacturer	Heatstore
