

Hive Window or Door Sensor

Sends an alert to your smartphone when your windows or doors are opened or closed

Product overview

- The clever wireless sensors send an alert to your smartphone if your window or door has been opened or closed. You can turn the notifications off when you know you'll be at home
- Easy to install, use the self-adhesive tabs and attach the larger wireless sensor to your window or door and the smaller sensor to the frame
- Just pair with the Hive Hub and add your sensor on the Hive app

Box contains

- Hive Window or Door Sensor Master
- Hive Window or Door Sensor Slave
- **DURACELL** battery CR123A Lithium
- Adhesive tabs
- User guide

Product feature details

- Improved look and feel
- Improved install with a simple pull tab instead of having to insert the battery into the sensor
- Battery Life: 2 yrs. based on normal use
- Improved mounting so the smaller part can be positioned either side of the larger part rather than one side only
- Slide and release case to change battery
- Light sensor
- Designed for indoor use
- Mount with adhesive tabs

App Features

- Check status – open or closed
- Turn on/off notifications for when the door/window opens or closes
- Schedule up to 6 notification timeslots a day
- Choose how to receive notifications (email, push or both)
- See a 7 day history of events
- Hive recipes allow you to set triggers and actions for any Hive Sensors, Hive Active Plugs™ or Hive Active Lights™ that you have helping to make your home work for you

What you'll need

- The Hive Hub
- For the Hive app you'll need an Apple iPhone or iPad (iOS 7 or later) or a device running Android (min 4.0.3)
- Laptop or tablet with internet access and an up-to-date web browser (we recommend minimum: Internet Explorer 10 or the latest versions of Google Chrome, Firefox and Safari)
- Hive is a British Gas innovation, but you don't need to be a British Gas customer to buy the Hive products
