

Information Leaflet for HSTIRFX wireless controller

Warnings

- Do NOT handle the appliance with wet hands.
- Do NOT use the appliance in workshops or rooms with high dust exposure.
- Do NOT cover or restrict any aperture.
- Do NOT use the appliance if damaged.
- Do NOT leave the appliance unattended where young children are present.
- Ensure that nothing is pushed into any aperture of this controller.
- Operating temperature range -10 to +40°C.

Pairing the heater to the HSTIRFX

In order to pair your appliance with the controller you must:

- Turn power to the appliance ON.
- Within 20 seconds, press and hold the 'MENU' and 'UP' buttons on the controller until the display shows 'PAIR'
- The heating will switch on. If the heating is set to off, then after 4 seconds the heating will turn off.
- The appliance is now ready to be used.

Basic operation of the HSTIRFX

To use the HSTIRFX, it has to be activated by pressing any control button. It will remain active for 10 seconds.

The HSTIRFX has 4 operating modes: **BOOST**, **MANUAL**, **FROST PROTECT**, **AUTO**.

Each mode can be selected by pressing the 'MENU' button to cycle through the options. The cycle sequence will always start with 'BOOST' mode followed by 'MANUAL', 'FROST PROTECTION' and 'AUTO'.

To set the temperature, select the desired operating mode. Follow the steps listed below.

- Press 'UP' or 'DOWN' buttons, the displayed temperature should flash on the display
- Use 'UP' or 'DOWN' buttons to change the set temperature. 'UP' will increase the temperature, 'DOWN' will decrease the temperature.
- Once the temperature has been set, leave the device to return to the chosen operating mode. The new temperature will be saved.

The HSTIRFX also has a standby mode. To enter/exit this mode, press the 'STANDBY' button. The heating will not be activated when in standby mode.

Complete Installation/Operating Guide
