

# MFORCE FOR PORTABLE SAWS

## B-08056

A revolutionary advanced tooth design that sets a new bench mark for blade technology. The dual beveled tooth face has sharper cutting edges and the "M" shape is like doubling the tooth count per blade. A greater wear area and more cutting surfaces means the MForce blade will last up to 2 x longer than traditional blades. A narrow kerf and plate reduces friction allowing for a lighter feed pressure, protecting the motor of your saw.

MFORCE FOR PORTABLE SAWS

### TECHNICAL SPECIFICATIONS

Diameter (D)	190 mm
Blade ID	CSMX19024G
Kerf (K)	2 mm
Bore (B)	30 mm
Tooth Count	24
Rake (R)	15 °
Cross Cut	✓
Rip Cut	✓
Machine Type	Portable Saw
Material Type	Wood
Pack Quantity	1
Thickness (T)	1.2 mm

### USER BENEFITS

- Lasts two times longer, and cuts much cleaner than normal blades. Fine cut
- Symmetrical head-geometry with centring-tip for optimised results in the event of reinforcement.
- Sub-brand: MForce
- Sub-brand: MForce
- Application: Cross and rip cutting. Wood. Joinery, Carpentry. Cabinet making
