USER BENEFITS

- Compatible with 60mm cafe bags as well as ground coffee
- Carry handle for easy transport
- Dedicated cup of 240ml capacity designed to fit in machine without leaving a gap to protect against splash and dirt entry
- Commercial cups up to 90mm height will fit the machine
- Battery ports for LXT and CXT batteries
- Protection cover for empty battery terminal
- Boil dry protection function prevents the machine from burning out: If water empties and temperature inside increases, the sensor will turn off power supply automatically.
