

M18 ONEHUCT-202B SWA KIT

M18™ FORCE LOGIC™ ONE-KEY™ HYDRAULIC UTILITY CRIMPER

- FORCE LOGIC™ ONE-KEY™ hydraulic utility crimping tool crimps connectors in less than 3 seconds with 53 kN of force
- Brushless POWERSTATE™ motor delivers up to 4x more motor life
- Best balanced tool and easiest control due to one-hand operation
- Compact in-line and slim jaw design with 350° rotatable head allows easy crimps, even in narrow spaces
- 2 in 1 solution: Crimping jaw can be exchanged for an ACSR, CU/ AL or armoured wire cable cutting jaw
- PFM™ (Predictive Force Monitoring): Automatically modifies output based on connector, ensuring optimal pressure every time and visualises with a green light
- Jaw with universal die reception to fit most common W-style dies and standard BG crimping groove
- Tool records & stores every crimp made. ONE-KEY™ enabled for professional report buildings via ONE-KEY™ app
- ONE-KEY™ tool tracking & security offers a cloud-based inventory management platform that supports both location tracking and theft prevention
- FORCE LOGIC™ long life reliability: Industry-leading 30,000 cycles between calibration inspections - The tool will continue to work after reaching 30,000 cycles
- Sealed electronics resist harsh environments with dirt, dust and moisture

REDLITHIUM™

Weight with battery pack (EPTA) 3.3 (M18 B2)
(kg)

Standard equipment

Kit included 2 x M18 B2 Battery packs,
M12-18 C Charger, Tool bag
