

6 Way Splitter 'F' Type 5-2400MHz Power Pass All Ports

07MM-ES06

The ES series splitters are a cost-effective option for domestic and MATV installations. The splitters are F-type all port DC power pass and are rated 5-2400MHz allowing for use in CATV and satellite frequency ranges. The series comes in 2, 3, 4, 6 and 8-way options and is individually packaged in simple polybags to help minimise waste and maximise storage space in your work vehicle.

Features and Benefits

- » Suitable for both satellite and FTA
- » F-type all port power pass (DC)
- » 5-2400MHz pass
- » Cost-effective
- » Bulk packaging available

| Frequency range | 5-40MHz | 40-1000MHz | 1000-1750MHz | 1750-2400MHz |
|------------------|---------|------------|--------------|--------------|
| Insertion loss | ≤10.0dB | ≤11.5dB | ≤13.8dB | ≤17dB |
| Mutual Isolation | ≥18dB | ≥20dB | ≥20dB | ≥20dB |
| Return loss | ≥10dB | ≥10dB | ≥10dB | ≥10dB |
