

SNE 5 t ECO GB

SMALL WATER HEATER

PRODUCT-NO.: 202135

Experience economy and high performance

Water at the right temperature whenever you need it? You're in good hands with our high performance fully electronic small water heater. The preferred temperature can be set to the exact degree, to suit your individual needs. Power saving operation of the appliance is available at the press of a button – and the ECO function is enabled.

Select the best program

Select one of the three time programs – home, office or custom – and our small water heater will flexibly adapt to your daily routine and minimise energy losses. For example, are you ever away from home at weekends? Automatic shutdown for this period is not a problem. Thanks to the integral hygiene function, you have no need to worry about the growth of germs.

The main features

Small water heater for undersink installation

Accurate temperature settings in the range of 30 - 85 °C thanks to electronic closed-loop control

Power saving mode due to optional ECO function

No dripping during heating up, reduced scaling plus water savings thanks to the anti-drip function

Energy losses with mixer taps are prevented by the thermostop function

Safe use due to adjustable electronic temperature limit as anti-scalding protection

Display of operating parameters on illuminated LCD screen

Optimum DHW heating with minimum energy losses thanks to three adjustable weekly timers

Integral hygiene function to prevent the growth of germs

Straightforward installation thanks to standard plug
