WALL MOUNTED CYLINDER

PRODUCT-NO.: 232783

Price conscious hot water provision.

In wall mounted cylinders, the amount of standby power consumed greatly influences the operating costs over time. Thanks to its exceptional insulation, this wall mounted cylinder offers terrific hot water convenience at an affordable price.

Simple yet effective.

The clearly structured control element enables stepless temperature adjustment, while the individual LEDs provide information on the heat amount currently stored.

The main features

Stepless temperature adjustment

Electronic heat content indicator via LEDs

Temperature limit possible

For supplying one or more draw-off points with DHW

Quick heat-up button for higher DHW demand

Easy to maintain due to protective anode with consumption indicator

Very low energy losses thanks to high grade thermal insulation

Special enamel coating for a long service life

Stepless temperature adjustment

Frost protection integrated in the DHW cylinder
