

TELLTAIL is an all-in-one safety collar and cable marker combined to provide an improved and faster way to permanently identify electrical cables used in the wiring of Smart Electricity Meters.

The high-contrast embossed printed identification tag ensures compliance with the Wiring Regulations (BS 7671).

Whilst the unique design of the integrated safety collar can improve revenue protection and pre-marking existing cables before meter changes is easy... simply clip-on a TELLTAIL

Features and Benefits

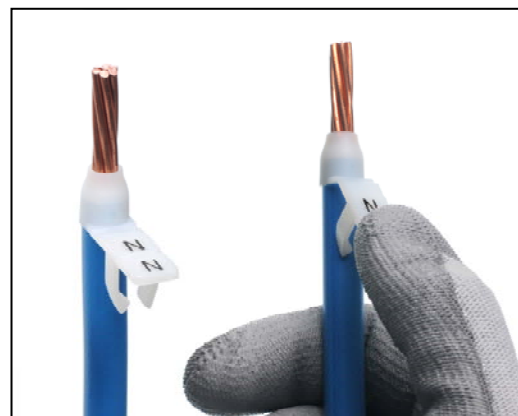

- Supplied in a handy dispenser with enough cable markers to install 100 Smart Meters
- The all-in-one safety collar and cable marker
- Safe, fast and easy to fit
- Lower cost than cable ties and safety collars
- No off-cut scrap waste or sharp edges
- Much faster and easier to use than adhesive tape or cable ties
- High contrast printed tag ensures compliance with the Wiring Regulations (BS 7671)
- For single and polyphase electricity meters
- Ideal for use while wearing work gloves
- Suitable for 16mm² and 25mm² cables

TELLTAIL Single Phase dispenser with user instructions printed on the base
