

Features

- Provides protection against earth fault/leakage current, short-circuit and overload
- Provides complementary protection against direct contact by human body
- A safety appliance that protects that protects personal safety and prevents electrical fires
- Prevents electrical equipment from being damaged
- Be widely used in power distribution systems
- Use in commercial and industrial installations
- Rigid conductor up to 25mm², available for both comb and bus-bar

Approvals

CB CE SGS ESV

Standard	IEC/EN AS/NZS 61009-1
Number of Pole	3P+N, switched neutral, 72mm
Rated Voltage	400/415V~ 50/60Hz
Rated Current	6, 10, 16, 20, 25, 32,40A
Breaking Capacity/Ics	6,000A
Rated Residual Operating Current	10mA, 30mA, 100mA, 300mA
Tripping Curve	B,C
Operating Characteristics	Type A
Mechanical Life	10,000 cycles
Electrical Life	4,000 cycles
IP Rating	20

TMCBO440M
6KA, 72mm
