

LinePro Class 00

We Protect People.

LinePro Class 00 Voltage gauntlet style natural latex glove is designed for electric shock protection up to 500 volts.

- Class 00 Voltage glove up to 500 Volts protection
- High grade insulating natural rubber latex
- Superior dielectric properties
- Exceptional anatomical construction
- Excellent flexibility in cold environments
- Retains flexibility 3X better than standard electricians gloves in low temperature environments
- High flexibility reduces wearers hand fatigue
- Latex dipping process conforms to eco-friendly standards
- Innovative drying system to enhance insulating properties
- Each glove undergoes an intense quality inspection to ensure electrical properties and no cosmetic defects

Range	Class 00
Thickness mm (max) EN 60903	1.10
Length mm EN 60903	360 (+/- 15)
Cuff Profile	Straight
PPE Category	III
Category	A, C
Proof test voltage AC (V)	2,500
Maximum working voltage AC (V)	500
Withstand test voltage AC (V) EN 60903	5000

Coating Smooth Latex

Packaging 1 Pair I Box
12 Pair Case

Sizes 8-10

Key Industries

- Aerospace
- Automotive
- Utilities

Environments

EN 60903:2003 Class 00
IEC 60903:2014 Class 00
EN420:2003+A1:2009

Category III
Acid
Extremely low temperature

Packed in opaque UV resistant bags and individual boxes for protection
