

PRODUCT USE & MAINTENANCE SHEET

Please read these instructions carefully before installation and retain for future reference.

PRODUCT RANGE: WORK LIGHT

OPERATING VOLTAGE: 230V~50Hz

LAMP TYPE: LED 6000K

SECTION 1 – GENERAL GUIDELINES

- This product should not be modified in any way. Tamlite Lighting will not accept any responsibility for modified products or for any damage caused as a result of modifications. Any modification made will immediately invalidate any warranties issued with this product.
- Do not attempt to open the casing or expose the battery in any way.
- The product should be inspected before each use to ensure there is no damage to the casing or any missing parts.
- If the casing is damaged, discontinue use immediately and do not attempt to recharge the battery.
- It is the responsibility of the user to consider any fire risks and take the appropriate precautions.
- Do not expose the work light to fire as the battery may explode.

SECTION 2 – BATTERY CARE

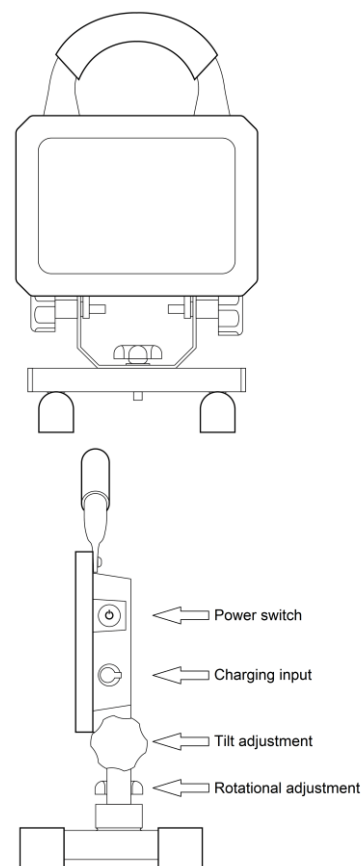

- This product contains a Lithium ion battery which does not suffer any memory effect and does not need to be fully discharged periodically.
- This product should be charged after use, prior to storage and will only lose around 2% charge in 30 days without use.
- Do not use the charger if the cord is damaged, or if there is any other damage to the charging unit.
- Do not charge the battery when ambient temperature is below 5°C or above 25°C.
- **Do not charge the battery whilst the light is in use.**
- Do not use any charger other than the one supplied.
- Do not charge the battery in wet conditions of when the work light is wet
- Unplug the charger when not in use.

SECTION 3 – INSTRUCTIONS FOR USE

- Fully charge before use.
- Plug the charger in to a standard 230V supply and plug charging cable in to the input on the work light.
- The indicator light will flash red and green to indicate the battery is charging.
- A solid green light indicates charging is complete.
- One click on the power switch will turn the work light on at full power.
- A second click on the power switch will reduce the light output to low power mode.
- A Third click on the power button will switch the unit off

SECTION 4 – INFORMATION AND MAINTENANCE

- Luminaire suitable for indoor and outdoor use.
- Suitable for use in ambient temperatures of +5°C to +25°C.
- Clean this fitting with a soft damp cloth, do not use any chemicals or abrasive cleaners.
- At the end of the products life, this product must not be disposed of in landfill.
- Local recycling guidance should be sought for disposal.
- This product contains no user serviceable parts and should be returned to manufacturer for service.
