Item description

WAGO-I/O-CHECK is an easy-to-use Windows application for checking inputs and outputs and displaying a WAGO I/O System 750 node.

The software reads the configuration from the node and displays it as a graphic on the screen. The graphic can be printed together with a configuration list as documentation.

With WAGO-I/O-CHECK, it is possible to display and determine the process data of the I/O modules. The field wiring, including all sensors and actuators, can thus be checked before startup.

Subject to changes. Please also observe the further product documentation!

Do you have any questions about our products?
We are always happy to take your call at +49 (571) 887-44222.

Application-specific settings, such as the baud rate or type of sensors, can be made using certain interface, Pt100 and thermocouple modules.

The coupler must be connected at a vacant serial or USB port of the PC using the communication cable supplied in the set with the system to enable communication between WAGO-I/O-CHECK and the coupler.

Data

System requirements

Supported operating systems	Windows 7 Windows 10
Processor	1 GHz or higher, with 32 bits (x86) or 64 bits (x64)
Memory	1 GB RAM (min.), 2 GB RAM or more (recommended)
Hard disk space	min. 150 MB
Graphics resolution	1024 x 786 (min.), 1280 x 1024 or higher (recommended)

Delivery

Delivery type	Installation file (CD-ROM)
Scope of delivery	CD-ROM with software and USB communication cable (750-923)

Commercial data

PU (SPU)	1 Stück
Packaging type	box
Country of origin	DE
GTIN	4045454877583
Customs tariff number	85234920009
