

MR1100

> Boost user comfort with a reliable warm air dryer.

Perfect for use in restricted spaces. Uses a 600W motor for high speed drying in under 16 seconds, with an additional 500W heating element.

KEY FEATURES

- Warm air drying for added comfort.
- No touch automatic operation.
- Fast dry time of less than 15 seconds.
- Anti-microbial coating for added hygiene.
- Unique **phs** click on system for easy installation and maintenance.
- Slim, compact, and modern design.
- Ultra-strong and durable ABS plastic cover.
- Blue light to indicate the unit is connected to a power source.
- Replaceable air intake filter.

Technical specifications

Dimensions	28.2cm x 26cm x 15.2cm
Weight	2.8kg
Operation	Automatic
Voltage	230V/50HZ
Power rating	1100W
Motor speed	34,200 rpm
Rating	IP24
Finished	White, Nickel and Black

Unique Connect Technology

phs Connect is an innovative feature which allows the back plate and electrical connection to be installed separately to the main dryer unit. Once installed the dryer quickly and securely locked onto the back plate.

For refurbishments or new build sites, this allows the back plate and electrical connection to be installed at first fix, and the actual dryer unit to be installed later. It also allows any non-electrically qualified person to exchange in the unlikely event of a failure.

Available in Nickel
