Blades with Take it easy Tool finder with colour coding by profile and laser-engraved size indication

Individually tested

Each Kraftform Kompakt VDE set has been tested individually at 10,000 volts, in accordance with IEC 60900.This ten-times-higher testing load guarantees safe working at their maximum permitted load of 1,000 volts.

Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

VDE interchangeable blade with reduced shaft diameter

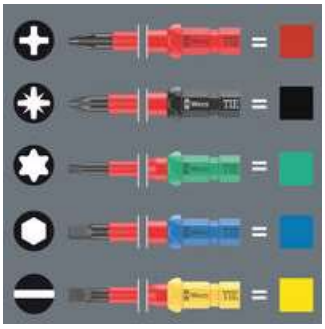

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.

PlusMinus screwdrivers

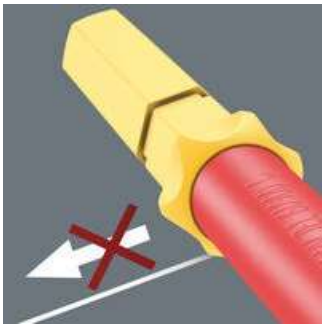

For the use in terminal blocks, control cabinets, switches, relays, sockets etc.

Take it easy

The Kraftform Kompakt VDE blades are equipped with the Take it easy tool finder. Colour coding by profile and laser-engraved size indication make it easy to identify the required tool quickly.

Hexagonal anti-roll feature against rolling away

The Kraftform Kompakt blades come with an anti-roll protection. The hexagonal shape hinders the blade from rolling away annoyingly at the workplace.

Fast turning

The palm of your hand is comfortably supported on the rounded shape of the rear end of the blades. This allows quick spinning of the blade and accelerates the screwdriving process.
