Appliance warranty 24 months plus additional 36 months boiling tank warranty

---

## Installation Requirements

1. Installation and connection of your Zip HydroTap must be carried out by a qualified person, observing national and local regulations.
2. You will require suitable mains electrical and drinking water connections, plus waste water drainage all within 1 metre of the product.
3. HydroTap is air-cooled so discrete cabinet cut-outs are required for ventilation.
4. Installation on most bench tops is straightforward however some stone bench tops may require a specialised cutting service.
5. If you live in a hard water area, we recommend the installation of a Zip limescale filtration kit.
6. Installation by our HydroCare team can be arranged with a phone call or through [www.zipwater.co.uk](http://www.zipwater.co.uk)
